

How to Make Your Birthday Cake

You'll need:

- Cake Mix (from your bag)
- Can of Soda (replaces eggs, oil, and water!)
- Oven (or access to one)
- Mixing Utensil (large fork, spoon, or whisk)
- Mixing Bowl
- Cooking spray or oil to grease the pan

Preheat Your Oven

use the temperature on the back of your cake mix

Grease your pan

You can use any size or material pan you have access to

Mix the Batter

In the bowl, combine the cake mix and soda. Mix until just combined- if you leave it for too long the cake won't rise.

Pour & Bake

Pour the Batter into the pan. Bake using the times on the cake box according to your pan size.

Cool & Decorate

Let the cake cool completely before frosting it. Frost, add sprinkles, candles, and enjoy!

Happy Birthday!

We hope this treat helps make your day extra special. You deserve to feel seen and celebrated on your birthday!
